

IOlXObject

```
classDiagram
    class IOlXObject
    class APerishable
    class test_Perishable["test::Perishable"]
    APerishable --|> IOlXObject
    test_Perishable --|> APerishable
```

The diagram illustrates a class hierarchy. At the top is the `IOlXObject` class, enclosed in a dashed rectangular border. Below it is the `APerishable` class, enclosed in a solid rectangular border. At the bottom is the `test::Perishable` class, also enclosed in a solid rectangular border. A vertical arrow points from the top of the `APerishable` box to the bottom of the `IOlXObject` box, indicating that `APerishable` inherits from `IOlXObject`. Another vertical arrow points from the top of the `test::Perishable` box to the bottom of the `APerishable` box, indicating that `test::Perishable` inherits from `APerishable`.

APerishable

test::Perishable
