

IOlxObject

```
classDiagram
    class IOlxObject
    class AReferencible
    class TTBuffer_T["TTBuffer< T >"]
    AReferencible --|> IOlxObject
    TTBuffer_T --|> AReferencible
```

The diagram illustrates a class hierarchy. At the top is the 'IOlxObject' class, represented by a dashed border. Below it is the 'AReferencible' class, represented by a solid border. At the bottom is the 'TTBuffer< T >' class, also represented by a solid border. Two vertical arrows point upwards, indicating inheritance: one from 'AReferencible' to 'IOlxObject', and another from 'TTBuffer< T >' to 'AReferencible'.

AReferencible

TTBuffer< T >
